**Subject:** Request to Implement "**Janmanch**" as Community Engagement Project in Ward 15B.

Respected Sir/Madam,

We, a team of four **Second-Year Engineering** students from the **Information Technology Department, Pimpri Chinchwad College of Engineering** are working on an innovative project named "**Janmanch**". This project is being developed as part of the **Community Engagement Project**, aimed at enhancing communication between citizens and their elected representatives by providing timely updates on government schemes, development projects, and community activities.

The platform also features:

1. A grievance redressal system for citizens.
2. Detailed ward and corporator information.
3. Real-time updates to the community.

To bring this initiative to life and benefit the citizens of your ward, we respectfully seek your permission to proceed with implementing the project in your constituency.

We are confident that this platform will contribute positively to community development and citizen engagement. We kindly request you to grant us an opportunity to present the project in detail and seek the necessary approval to begin our work.

**Thanking you in anticipation.**

Yours sincerely,
